Strategic plans for the College

Strategic planning at the College is done under school improvement initiatives as required by the Australian Federal Government. As part of this process the College is committed to using the Quality Adventist Schools (QAS) school improvement framework developed by Adventist Schools Australia. The framework provides a set of standards that describes schools at various levels within a Domain and Component framework. The College uses gathered data about the College program to assess against the standards in the framework. Using this assessment, the school will adopt school improvement initiatives that will be added to their rolling school improvement plan. The School commenced an updated version of the previous self-assessment process using the QAS Framework 2.0. The plan is that the school will assess itself in three components each year ensuring that all components are completed in a five-year period. Please find below a list of the components in the Quality Adventist Schools Framework 2.0.

Both the Primary and High School Student Representative Councils have been successful in engaging students in College activities such as fundrasing events for a variety of charities and organising peer support opportunities for the school's younger primary students.

Students have also made meaningful suggestions to College administration that have been incorporated where applicable and appropriate. The activities of the Student Representative Councils involved students in decision-making and positions of responsibility.

2 Contextual information about the school

Border Christian College is a small community oriented, co-educational institution offering a Christian education from Pre-Kinder to Year 12. The College has a strong pastoral care program and focuses on the holistic growth of individual students.

The College is known for its small teacher pupil ratio and differentiated education programs that emphasise the strong engagement of students with learning. The small class sizes and composite classes enable the acceleration of students in areas of ability and the remediation of skills in areas where students experience difficulties.

-

3. The school has an absolute discretion in determining the weight of each of the factors it takes into account in determining whether to offer a place for the student.
4. Continued enrolment at the school is dependent upon the student making satisfactory academic progress, attending consistently, and the student and the parent/carer(s) observing all behavioural codes of conduct, payment of fees and other requirements of the school which are applicable from time to time.

Composition/characteristics of the student population

The female to male ratio of students is 19:20. 92% of students were born in Australia and 93% of students have English spoken at home. 32% of students identify their religious background as Seventh-day Adventist.

3. Guiding Principles

Facilitating Complaints

People focus

The company is committed to seeking and receiving feedback and complaints about practices, procedures and complaint handling at schools and/or the company level.

Any concerns raised in feedback or complaints will be dealt with within a reasonable timeframe.

People making complaints will be:

- provided with information about the complaints handling process;
- listened to, treated with respect by staff and actively involved in the complaint process where practicable and appropriate; and
- provided with reasons for decision/s and any options for redress or review.

No detriment to people making complaints

All reasonable steps will be taken to ensure that people making complaints are not adversely affected because a complaint has been made by them or on their behalf.

Anonymous complaints

Anonymous complaints will be accepted and there will be an investigation of the issues raised where there is enough relevant information provided, including the identity of the school or office to which the complaint relates.

Visibility and transparency

Information about how and where complaints may be made will be readily available and publicised on school websites.

Accessibility

The company is committed to ensuring that its complaints management process is easily understood and accessible to everyone, particularly people who may require assistance, for example, people for whom English is not their first language.

If a person prefers or needs another person to assist them in the making and/or resolution of their complaint, the school or company will communicate with them through their representative if this is their wish. Anyone may represent a person wishing to make a complaint, with their consent.

Respond to Complaints

Early resolution

Where possible, complaints will be resolved at first contact with the particular school or, in the case of complaints about the company, first contact with the director.

Responsiveness

Complaints will be assessed and prioritised in accordance with the urgency and/or seriousness of the issues raised. If a matter concerns an immediate risk to safety or security the response will be immediate and will be escalated appropriately.

The company is committed to managing people's expectations and will inform them as soon as possible, of the following:

- the complaints process;
- the expected timeframes for actions;
- the progress of the complaint and reasons for any delay; and
- their likely involvement in the process.

The school or company will advise people as soon as practicable when it is unable to deal with any part of their complaint.

Objectivity and fairness

Each complaint will be addressed with integrity and in an equitable, objective and unbiased manner. Each complaint will be assessed on its merits.

Conflicts of interests, whether actual or perceived, will be managed responsibly. In particular, internal reviews of how a complaint was managed will be conducted by a person other than the original decision maker.

Confidentiality

The identity of people making complaints will be protected where this is practical and appropriate.

Personal information that identifies individuals will only be disclosed or used by the company as permitted under privacy legislation.

Manage the Parties to a Complaint

Empowerment of staff

All staff managing complaints are empowered to implement the complaints guideline as relevant to their role and responsibilities. Staff are empowered to resolve complaints promptly and with as little formality as possible. Staff are encouraged to provide feedback on the effectiveness of this complaints management process.

Managing unreasonable conduct by people making complaints

Schools and the company are committed to being accessible and responsive to all people who approach them with feedback or complaints.

When people behave unreasonably in their dealings with either a school or the company, conduct can significantly affect the progress and efficiency of the school or company's work. As a result, any conduct that negatively and unreasonably affects a school or the company will be proactively and decisively managed by staff.

4. Complaint Management System

Stages of Managing a Complaint

When responding to complaints, staff should act in accordance with this guideline. There are five key stages in the complaint management system:

- Receipt of complaints;
- Acknowledgement of complaints;
- Initial assessment and addressing of complaints;
- Providing reasons for decisions; and
- Closing the complaint, records keeping, redress and review.

Receipt of Complaints

Unless the complaint has been resolved at first point of contact, it will be recorded as a complaint together with its supporting information. Initially verbal complaints will be accepted but with serious complaints the person making the complaint may subsequently be asked to set out their complaint in writing.

The record of the complaint will identify:

- the contact information of the person making the complaint;
- issues raised by the person making the complaint;
- the school or company to which the complaint relates;
- the outcome/s sought;
- any other information required to properly respond to the matter; and
- any additional support the person making the complaint requires.

Acknowledgement of Complaints

The receipt of each complaint will be acknowledged promptly and usually within 10 working days.

Consideration will be given to the most appropriate medium for communicating with the person making a complaint, taking into account the needs of the school or the company and the expressed views of the person making the complaint.

Initial Assessment and Addressing of Complaints

After acknowledging receipt of the complaint, the staff member handling the complaint will confirm whether the issue/s raised in the complaint is/are within the school's or company's control. The outcome/s sought by the person making a complaint will be considered and, where there is more than one issue raised, there will be a determination whether each issue needs to be separately addressed.

When determining how a complaint will be managed, the issues raised will be assessed against the following criteria:

- severity;
- complexity;
- health and safety implications;
- impact on the individual or wider school community; and
- potential to escalate.

Addressing complaints

The methodology for addressing the complaint may include:

- working with the person making the complaint to see how the issues can be appropriately addressed;
- making inquiries with the person or area that is the subject of the complaint; and/or
- conducting an investigation into the issues raised in the complaint.

The nature and scope of any action taken will depend on a number of factors including:

- the circumstances of each case;
- any statutory requirements;
- the issue/s complained about;
- the parties involved; and
- the likely outcome.

5. Providing Reasons for Decisions

Following consideration of the complaint and any investigation into the issues raised, the person making the complaint will be contacted in a timely manner and advised of:

- the outcome of the complaint and any action that was taken arising out of the complaint so far as permitted under privacy legislation;
- the reasons for any decisions that have been made; and
- any remedy or resolution that has been offered.

6. Closing the Complaint, Record Keeping, Redress and Review

At the time of closing the complaint a record will be made of the following:

- steps taken to address the complaint;
 - the outcome of the complaint; and
 - any undertakings or follow up action required.
-

7. Three Levels of Complaint Handling

Where possible, complaints will be resolved by staff at the appropriate school level. Staff will be adequately equipped to respond to complaints, including being given appropriate authority, training and supervision.

Where early resolution of a complaint is not possible, however, due to the complexity of the issues raised, dissatisfaction with the complaint outcome or how the complaint was dealt with, the complaint may be escalated to the director level. This second level of complaint handling will provide for the following internal mechanisms:

- assessment and possible investigation of the complaint and decision/s already made, and/or
- facilitated resolution (where a person not connected with the complaint reviews the matter and attempts to find an outcome acceptable to the relevant parties).

Where a person making a complaint is dissatisfied with the outcome of the director's review of their complaint they may seek a further review from the Chair of the Board of Directors. In some instances the Chair of the Board of Directors may engage a third party to review a matter and provide a report.

8. Accountability and Learning

Analysis and Evaluation of Complaints

Complaints are recorded in a systematic way so that information can be easily retrieved for reporting and analysis.

Regular reports will be run on:

- the number of complaints received;
- the outcome of complaints;
- issues arising from complaints;
- systemic issues identified; and
- the number of requests received for internal and/or external review of complaint handling.

Regular analysis of these reports will be undertaken to monitor trends, measure the quality of service and make improvements.

Both reports and their analysis will be provided to the Director of Education for review.

Monitoring of the Complaint Management System

The complaints management system will be monitored to:

- ensure its suitability for responding to and resolving complaints; and
- identify and correct deficiencies in the operation of the system.

Continuous Improvement

The Company is committed to improving the effectiveness and efficiency of its complaints management system. To this end, the company will:

- support the making and appropriate resolution of complaints;
-

- implement best practices in complaint handling;
- regularly review the complaints management system and complaint data; and
- implement appropriate system changes arising out of analysis of complaints data and
- continual monitoring of the system.
